Dear Ed:

Enclosed is a copy of Technical Report Number 10, which discusses in particular the means of treating and reporting the scattering data which will be taken in future experiments. I hope very much that you can review this and let us have your comments before you leave for your months trip on June 9th.

I will possibly have reached you by telephone before you see this report to advise you that [Redacted] will be going through Washington, probably on June 1st and again on June 3rd. This would provide an opportunity for you to discuss the method of data reporting with him firsthand.

STAT

Please note that this is a rough draft. The formal report along with a statement of spending will be forwarded to you at a later date. We are sending this now only to be sure that we have your comments on the method of data reporting as soon as possible.

Sincerely yours,

[Redacted]
